

PATIENT RESOURCES

Helping you navigate through the unknown

THE **LIMB**
PRESERVATION
FOUNDATION

The Limb Preservation Foundation provides hope, help and possibilities for people facing limb loss due to trauma, tumor or infection. With the help of physicians, researchers, and passionate healthcare professionals, the foundation educates and supports patients and their family members, enhancing and enriching lives in the process.

Being told you may die or need an amputation is devastating. We provide patients with the emotional, financial, and navigational support to get them through the biggest challenge they've ever faced. And we connect them with former patients who can help guide them through their medical journey.

PEER SUPPORT

The Limb Preservation Foundation offers one-on-one, peer-to-peer support for patients currently undergoing limb treatment due to tumor, trauma, or infection. The program complements and enhances medical care by creating the emotional, social, and practical assistance necessary for managing a limb-risk situation and moving toward wellness.

Through peer support patients gain:

- Empathy from someone who has had a similar condition
- Connectedness, inclusiveness, and a safe way to express themselves
- Hope for a fulfilling future
- Improved overall mental and physical health from a place of positivity and realism

Peer support has been proven to have psychological and physical health benefits.

The Limb Preservation Foundation is an independent nonprofit serving patients in the Rocky Mountain Region: Colorado, Wyoming, Utah, Nebraska, Kansas, New Mexico, Arizona, Montana, and Idaho

PATIENT ASSISTANCE

- LPF provides financial assistance for living expenses to people facing financial challenges while undergoing treatment for a limb-threatening condition. Examples include:
 - Rent
 - Utilities
 - Car payments
 - Certain outpatient related treatment costs

PATIENT CARE PACKAGE

We deliver a handmade quilt and care package to send some comfort to patients recovering from limb treatment. Please visit our website to find out how to receive/send a care package.

Talk to your medical provider or case manager about how to receive assistance.
