Golf Audience

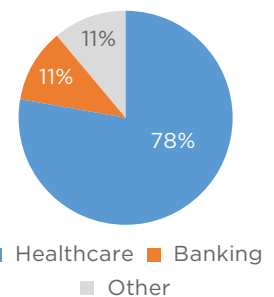

When patients are facing their greatest challenge, the Limb Preservation Foundation is honored to offer patients financial, emotional, and navigational support. Along with patient services, The Limb Preservation Foundation provides an important professional networking hub for a range of medical providers who care for limb patients, including orthopedic and plastic surgeons, physical and occupational therapists, trauma and wound care nurses, radiologists, physiatrists, prosthetists and more.

The Limb Preservation Golf Classic was established more than 20 years ago and attracts a high-level audience of golfers and corporate sponsors that demonstrate their support through this event. A recent participant survey revealed that 78 percent of respondents work in healthcare, 70 percent have more than 20 years' experience in their field and 56 percent hold master's degrees or above.
